

INTERDISCIPLINARY I

	TITLE	AUTHOR	COAUTHORS
1	The influence of a polyphenol-rich extract from chokeberries on the concentration of phospholipids in the liver under moderate exposure to cadmium – an experimental study in a rat model	Agnieszka Ruczaj	
2	The effect of different intensity of physical activity on the pressure of the eye	Gabrielė Kalvelytė	
3	Association between astigmatism and stereo acuity in a school-aged children	Gabija Butkutė,	Tatjana Kisil
4	Traumatic brain injury: significance of subdural hemorrhage and ethyl alcohol	Jogintė Saulė Anužytė	Julita Liučvaikytė
5	Subretinal hemorrhages: frequency and risk factors in neovascular AMD patients	Justina Džėjaitė	Gabija Butkutė
6	Immunohistochemical evaluation of CEACAM-1 protein in gastric cancer.	Agnieszka Gołaszewska	Jowita Bianka Kamińska
7	Evaluating The Liver Among Lung Transplant Candidates By Means Of Meld Score And Biochemical Tests	Aleksandra Kos	Marek Kokot, Magdalena Latos
8	Effect of carotenoid and chlorophyll content on the acid and peroxide value of selected vegetable oils	Karolina Kujawowicz	Eleonora Mahoney, Patrycja Nikołajuk, Martyna Milewska, Urszula Krasowska.
9	Value of anatomic and clinicopathological predictive parameters for head and neck melanoma survival	Andrė Lideikaitė	
10	Oculomotor Testing Value For Multiple Sclerosis Patients	Goda Sudarytė	
11	Protective impact of an extract from the berries of Aronia melanocarpa L. against oxidative protein damage in the bone tissue at the femoral diaphysis caused by low-level chronic exposure to cadmium – a study in an experimental rat model	Anna Sielewonowicz	
12	Simulator sickness assessment for a virtual reality application assisted Epley maneuver	Domantas Valančius	

INTERDISCIPLINARY I

13	Benefits of diagnostic algorithms in patients with suspected pulmonary embolism	Dovilė Ramanauskaitė	
14	Influence of respiratory position and arm position on contrast dynamics in pulmonary CT angiography	Adomas Aladaitis	Greta Petkevičiūtė
15	Relationship of perioperative factors and cognitive impairment in patients undergoing post-anesthesia care	Indrė Zubavičiūtė	Viktorija Micpovilytė
16	Magnetic resonance spectroscopy based pH measurement in prostate cancer: an experimental phantom feasibility study	Jonas Ražanskas	
17	The impact of neurocognitive disorders on balance abnormalities	Eliza Oleksy	Remigiusz Sokołowski, Wojciech Stemplowski, Karolina Klimkiewicz-Wszelaki, Paulina Kasperska, Anna Ziólkowska
